

# AH diagnostics

Welcome to our exhibition  
in Microbiology's seminar room 289B  
on Wednesday 2.11. at 09.00-11.00

Our product range includes eg.

ELISA and other analysis kits, antibodies, flow cytometry & cell imaging reagents and biochemicals

PCR and qPCR reagents, fluorescence proteins, Y2H, mammalian expression systems, reagents to cloning, DNA/RNA isolation and protein production and purification

Laboratory instruments for eg. bioimaging and ELISA assays

Take a break with us and enjoy some breakfast!

Best Regards,  
Miia Ainasoja and Jouni Rantanen
