

20th International Vascular Biology Meeting

June 3-7, 2018, Helsinki, Finland

Abstract Submission deadline: March 19

44 top Abstracts will be selected for short talks

Submit Your Abstract

**See the program updates:
IVBM2018 proudly presents a workshop on
Vascular Single-Cell RNA Sequencing**

Investigators from the vascular biology field will present their latest results and discuss technological challenges and bioinformatics methods. The workshop will include short talks followed by panel discussion plus a general discussion on the coordination of efforts, streamlining of methods, sharing of data, and meta-analyses.

Young investigators presenting a poster in IVBM2018 are welcome to apply for [Travel & Poster Awards](#).

Book Your Stay in Helsinki

HELSINKI & THE NORDIC SUMMER

Helsinki is a major Scandinavian capital between the East and the West with an enfolded seafront and archipelago. It provides a beautiful mixture of refreshing nature and contemporary city life, brimming with Scandinavian architecture and culture.

Helsinki is a walkable city that also offers an efficient public transportation network. In early June, the city sees more than 18 hours of daylight, which extends to the Nordic white nights when the sun sets only for a moment.

The Helsinki Airport (IATA code: HEL) is an award-winning airport with frequent connections to many global destinations.

For more information on visiting Helsinki, take a look at the [12 top reasons to fall in love with Helsinki](#).
