

2nd Workshop on Cell-Extracellular Matrix Interactions in Signaling and Disease

Date	December 2, 2010
Place	Auditorium F 101, Dept. of Physiology, Medical Campus, Aapistie 7; University of Oulu
Organizers	Oulu Center for Cell-Matrix Research, Nordic Infrastructure for Mouse Models & Biocenter Oulu Graduate School <i>Taina Pihlajaniemi & Johanna Myllyharju</i>
Travel grants	A limited number of travel grants are available from the NorIMM Network for graduate students and post-docs from outside of Oulu. For further information, please contact Raija Soininen, raija.soininen@oulu.fi
Study Credits	Certificate of attendance (3,5 hours)

Program

Chairs: Johanna Myllyharju and Donald Gullberg

12.00-12.10	Welcome and Introduction Johanna Myllyharju <i>Oulu Center for Cell-Matrix Research, Department of Medical Biochemistry and Molecular Biology, Institute of Biomedicine, University of Oulu</i>
12.10-12.50	Collagen and fluid balance in carcinoma: is there a link ? Kristoffer Rubin <i>Department of Medical Biochemistry and Microbiology, Uppsala University</i>
12.50-13.30	Rac1 function in skin disease Cord Brakebusch <i>BRIC - Biotech Research and Innovation Center, University of Copenhagen</i>
13.30-13.50	Coffee
13.50-14.30	Idiopathic pulmonary fibrosis: from mechanism to therapeutic application Katri Koli <i>Molecular and Cancer Biology Research Program and Haartman Institute, University of Helsinki</i>
14.30-15.10	Deciphering the mechanisms of organ assembly: the kidney as a model system Seppo Vainio <i>Laboratory of Developmental Biology, Oulu Center for Cell-Matrix Research, Department of Medical Biochemistry and Molecular Biology, Institute of Biomedicine, University of Oulu</i>
15.10-15.50	Extracellular regulation of TGFβ family signals during osteogenic differentiation Francesco Ramirez <i>Department of Pharmacology and Systems Therapeutics, Mount Sinai School of Medicine, New York</i>
15.50-16.00	Conclusion Donald Gullberg <i>Department of Biomedicine, University of Bergen</i>
