Project Summary

Consortium: 24 Partners
Coordinator: CINECA

Grant Agreement: 101017207
Call: INFRAEOSC-07-2020

30 months
(1 Jan 2021 – 30 Jun 2023)

Enable a European storage
and data management infrastructure for EOSC
Provide generic services to store, find, access,
and process data in a consistent and persistent way

Budget: € 6.997.706,66

18 providers from 11 European countries are offering
14 state-of-the-art data management services
together with more than 50 PB of storage capacity

Service Offering

14 services covering the whole research data management lifecycle

>50 PB of storage offered with the services

Standard requests to be served within 2 weeks

Support can be provided for customised solutions

Request the services from the EOSC marketplace ☞ HERE https://www.dice-eosc.eu/call-service-requests

Ask for further information by email ✉ HERE mailto:info@dice-eosc.eu

Data Discovery
Making research data findable
Data source harvestable and to make data widely discoverable

Data Repository
Long-term data resources preservation and sharing
To store non-active FAIR data

Policies based Data Archive
Mid-long term data resources, accessible from computing facilities to store non-active research data
Value-added services (integrity checks, replications, ..) for long-term, stable data archives.

Data Archive
Mid term storage resources after/between projects, Accessible from computing facilities to store non-active research data, bitwise preservation

Personal and/or Project workspace
Mid-term storage during project,
Good connection to computing facilities,
To store active resource data
