

# eDNA and other molecular methods in environmental monitoring -workshop

on Friday 12th November 2021 at 12–3.45 pm (Finnish time, UTC +2).

Workshop is free, open for everyone and will be held on-line.  
Mid-day session 12–1.30 pm is in English, afternoon session 2–3.45 pm is in Finnish.

Please sign up: <https://link.webropolsurveys.com/S/7D4F58D5DCD3459C>

We will hear interesting speeches from international experts **Prof. Florian Leese** and **Dr. Kat Bruce**. The main focus of the workshop is on interactive discussion and it is facilitated by Innotiimi-ICG. New national roadmap for implementing eDNA and other molecular biological monitoring methods in Finland will be presented on the event. The roadmap will be updated after the event based on comments and a joint discussion.

The workshop is organized by the Finnish Environment Institute (SYKE)'s projects *A pilot for implementing environmental DNA (eDNA) based methods into environmental and biomonitoring* “**eDNA pilot**”, *a Roadmap for implementing eDNA and other molecular biological monitoring methods in Finland* “**eDNA roadmap**” and *Finnish Ecosystem Observatory “FEO”*

Please feel free to forward the invitation to anyone who may be interested.
