### EDUCATION

**Second year of Master's degree « Fauna/Flora expertise », with distinction – 2013/2014 (Natural History Museum of Paris, FRANCE).**

**First year of Master's degree « Ecology, Biodiversity, Evolution » – 2012/2013 (Paris-Sud University, FRANCE).**

**Bachelor's degree in Biology of organisms and ecosystems – Ecology, with merit – 2011/2012 (Paris-Sud University, FRANCE).**

### NATURALIST SKILLS

**Mammalogy:** Good working knowledge of French species. Setting of monitoring and specific protocols (camera traps, bait tubes); Chiroptera: basic knowledge in identification of bats signals, contribution to radio-tracking monitoring sessions and prospection campaigns of summer roosting places.

**Ornithology:** Good working knowledge of French species. Experiences of population monitoring and ringing assistance.

### OTHER SKILLS

**Computer tools:** proper mastery of database management (Excel, Access), office (Office), GIS (ArcGIS, MapInfo), and data analysis (R) softwares.

**Languages:** English (fluent), German (school level).

### ADDITIONAL

- **Wildlife photography**

- **Voluntary investment:** member of the French Society for Mammals, summer volunteering with several associations since 2009 (migratory birds counts, monitoring and animation on a nature reserve, guarding of a herd, volunteering at a wildlife care center).

### EXPERIENCE

- **Temporary job in data base at the Ecology and Conservation Sciences Center (CESCO) – nov./dec. 2014 (Natural History Museum of Paris, FRANCE).**
- **Inventory of knowledge in terrestrial mammals of Île-de-France (internship) – feb./oct. 2014 (Natureparif, Paris, FRANCE).**

Centralizing and management of regional data, monitoring of motorway passages using camera-traps and planning development proposals, setting sampling protocol focused on little mammals.

- **Radiotracking of Bechstein's Bat in the Grésigne forest (internship) – july 2013 (Office National des Forêts, Tarn, FRANCE).**
- **Contribution to the conservation of the European Beaver in the Gardon (internship) – june 2013 (Association PILE Poil, Gard, FRANCE).**

Beaver population's inventory in the downstream section of the Gardon (indicators of presence, camera trapping, observations).

- **Habitat selection in the Pygmy Owl in the Vercors mountain range (internship) – apr./may 2013 (LPO Drôme & UMR BIOGECO, Drôme & Gironde, FRANCE).**

Analysis of home ranges assessed by radio-tracking and study of the mapped habitats in the nature reserve of the Hauts-Plateaux du Vercors, statistical analysis with R package.
