Northern Highlights of Biotech and Health seminar gives you a great opportunity to hear the latest news in life science and clinical laboratory medicine in the Oulu region. The seminar will cover topics from biotechnology and its applications in clinical medicine, drug development, printed intelligence and food safety, and university-industry collaboration. Come and meet people from business development organizations, biotech companies, clinical laboratories, and research and educational organizations. The seminar is part of the European Biotech Week which celebrates biotechnology, an innovative and vibrant sector launched by the discovery of the DNA molecule 60 years ago.
