

**SEMINAR AND HANDS-ON TRAINING ON**  
**Multi label plate reader applications**

**29<sup>th</sup> of May 2019**

at 9-11 in seminar room 102A (seminar)  
at 11.30-13.30 FaFy; Pharmacology and Physiology 2nd floor (hands-on)

**Morning coffee included**

**Come to learn, how new multi label plate readers can improve the quality of your research and what can they offer for you. Do you work with ELISAs, do you work with biomarkers, are you interested in CETSA or AlphaScreen and LANCE? Did you know that hTRF technology is nowadays part of PerkinElmer? Do you need to analyze your cell images? Did you know that newest plate readers can help you even there! You are warmly welcome to join us for our seminar and/or hands-on session. Please book your seat, number of seats is limited.**

**Registration for the day by 24<sup>th</sup> of May to**
