

Osteoarthritis Histopathology Seminar

Wednesday 30 Oct 2013 at 13:00

The scope of this seminar is to review the latest basic science and clinical views on aetiology and pathology of osteoarthritis and cartilage repair.

Program

13:00 Welcome words

Adjunct Professor Simo Saarakkala, Ph.D., University of Oulu

13:15 Etiology and pathology of osteoarthritis

Professor Kenneth Pritzker, M.D., Ph.D., Mount Sinai Hospital, Toronto

14:45 Coffee break

15:00 Osteochondral repair and tissue engineering

Professor Mikko Lammi, Ph.D., University of Eastern Finland

16:00 Cartilage repair: orthopaedist view

Professor Petri Lehenkari, M.D., Ph.D., University of Oulu

17:00 Seminar ends

Prof. Kenneth Pritzker is the key person in development of OARSI grading, the current gold standard in histopathology of osteoarthritis. He is a Pathologist at Mount Sinai Hospital, Toronto, and a Professor in the Department of Laboratory Medicine and Pathobiology, and the Department of Surgery, University of Toronto.

Prof. Mikko Lammi has 25 year experience in biochemistry and cell biology of cartilage and bone. His research includes research on the effects of joint loading on articular cartilage, cartilage repair with cell-seeded biomaterials, and manufacture of osteochondral constructs.

Prof. Petri Lehenkari is both a Professor in cell biology and a practicing Orthopedic Surgeon. This combination provides him a unique platform to work in translational medicine. His main research interest is in stem cell biology, and in use of stem cell in regenerative medicine.

Please sign up by 18 Oct 2013. Sign up and Information: simo.saarakkala@oulu.fi,
Seminar location: University of Oulu, Aapistie 7, Oulu, [Lecture hall A101](#)
