

21st May at 15:00

Aapistie 5A, 4th floor BCO seminar room 487B

Tech Seminar

“Genome sequencing, RNA sequencing and Proteomics analyses at BGI-Europe”

Qiang Yuan

Project Coordinator

BGI-Tech/Europe

Based on our former successful experiences, we already has internationally recognized sequencing for DNA, small RNA, RNA-transcriptome, ChIP-Seq, DNA methylation, target region capture, metagenomics sequencing, Immune Repertoire Sequencing & human MHC Capture Sequencing, single cell sequencing, proteomics analysis etc.

More information about BGI on these websites:

**If you want to meet with Qiang Yuan personally please contact Aki Manninen
(aki.manninen@oulu.fi)**

BGI Tech, a subsidiary of BGI - the world's largest genomics organization, is a leading provider of next-generation sequencing and bioinformatics analysis services for global customers. Equipped with the industry's broadest array of cutting-edge technologies, BGI Tech delivers rapid, cost-effective, and high-quality results that enable researchers to achieve scientific breakthroughs.

Full Range of Services to Meet Your Research Needs

Advanced Technology Platforms

Expertise and Experience

- Recognized as a world leader in DNA, RNA, and protein analysis
- Over 250 publications in top-tier journals
- Sequenced more than 1,000,000 samples
- Over 1,000 bioinformaticians to analyze your data

Turn-around Time, Quality and Price

- No project is too big for us
- Rapidly complete projects with uncompromised quality
- Exceed your project pricing expectations

Continuous Innovation

- Selected as World's Top 10 Most Innovative Companies in China
- Continuously developing new technologies including bioinformatics software SOAP

Reliability and Security

- Strong quality control and assurance
- Extremely robust data security system
- ISO 9001:2008 certified, Illumina CSPro certified and Agilent SureSelect certified

Advancing Scientific Breakthroughs - Working Together for a Better World

Partnerships and Collaborations

Over 15,000 partnerships and collaborative projects to accelerate the application, innovation and development of genomics research.

Featured in Top Media

Recognized by Fast Company¹, MIT Technology Review^{2,3}, Bloomberg Businessweek^{4,5}, Forbes, Nature, Newsweek, Science, The Economist, The New York Times, and The Wall Street Journal.

1. Selected as World's Top 10 Most Innovative Companies in China
2. 50 Disruptive Companies 2013 by MIT Technology Review
3. Sequencing More Genomes Than Anyone Else
4. BGI's Young Chinese Scientists Will Map Any Genome
5. Giant Panda Genes to German Bacteria Show China's Science Drive

Publications

Over 250 publications in top-tier journals, such as Nature, Science, and Cell.

As your premier scientific partner, BGI Tech is committed to providing high quality and innovative solutions for biological, agricultural, and medical research.
