

## Wellcome Trust Four Year PhD Programme

Faculty of Life Sciences, The University of Manchester

## **The Biochemistry of Cellular Systems**

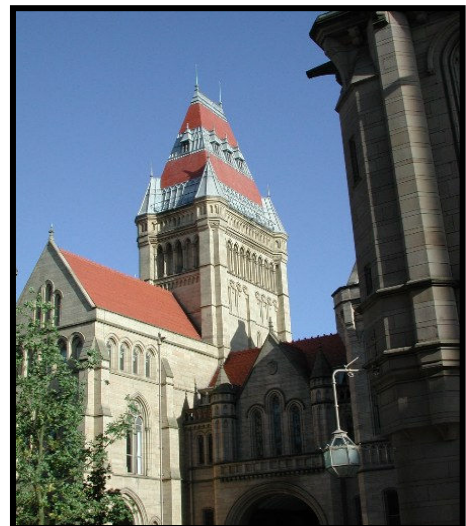

**We are seeking five outstanding research students for the final place on our Wellcome Trust-funded Four Year PhD Programme, for entry in September 2008.**

We focus on the function and regulation of protein complexes in health and disease, in:

- Gene expression
- Organelle biogenesis and membrane trafficking
- Extracellular matrix, cell adhesion and the cytoskeleton
- Cell division and apoptosis

We offer an excellent intellectual and scientific environment, a choice of 36 well-funded research laboratories, and a generous stipend (currently ~£16k-£18k).

The 1<sup>st</sup> year of the Wellcome Trust PhD Programme involves three laboratory-based projects. The projects are supported by a taught module. Based on the experience you gain during your first year, you will choose the topic and supervisor for your PhD research which will last for a further 3 years.

For full details of supervisors and their areas of research, and instructions on how to apply see:

**[www.manchester.ac.uk/lifesciences/postgraduate/wellcometrust/](http://www.manchester.ac.uk/lifesciences/postgraduate/wellcometrust/)**

**Applications should be submitted by Dec 12<sup>th</sup> 2007.**

**All short-listed candidates will be interviewed**
