

## **Open positions:**

### **Open Call Positions in Paras Biopharmaceuticals, Oulu**

Paras Biopharmaceuticals Finland is an **Oulu** based bioprocess company working on the production of biologics at small and large scale. We are located at Kiviharjunlenki 10, Oulu. Please visit our web page on [www.parasbiopharma.com](http://www.parasbiopharma.com) for more information on our ongoing projects. We are looking for new, enthusiastic biochemists to join our Biologics development projects. Opportunities for both students and graduates.

#### **1. Opportunity for “Master of Science” Student for Thesis Work:**

6 months MSc project. Thesis work can be mutually discussed with the student, the MSc project supervisor and Paras Biopharmaceuticals. The student will work as part of a team but is also expected to be able to perform tasks independently. The student will be under the supervision of an assigned supervisor at Paras as well as the MSc project supervisor from the Faculty of Biochemistry and Molecular Medicine. **Students interested in carrying out Thesis work at company are welcome to apply.**

#### **2. Positions for Biochemical and Analytical Work:**

Positions are available for graduated Biochemists (MSc or PhD degree) to become part of Paras' Biologics projects. Paras' development projects can be viewed at [www.parasbiopharma.com](http://www.parasbiopharma.com). Both, full- and part time positions are available. The duration of the assignments will be agreed on case by case. Any previous experience on the production of biologics is an advantage but not a must.

If interested to join our team at Paras, please send email for more information to
